

Abbey

Abbey has captured the hearts of almost everyone she meets! When we first went to meet her, we saw a video that showcased her talents and skills. She was harnessed to and was pulling a canoe around the yard with jingle bells and lights on it! Very impressive!

Abbey proved her diversity quickly once she got to Chakota and soon earned the nickname as Chakota's TANK. Not only is she gorgeous, with a flowing mane and tail, but she is stout enough to handle our largest Riders as well as gentle enough for our most fragile ones! She has become a staple in the program and we now use her for some non-riding programs as well.

Abbey is a young 18 year old. Her coat is a brilliant Chestnut color that absolutely shines when she is out in the sunshine! She is very intuitive with her Chakota family and enjoys challenging them when she can. She loves her cookies and carrots so much that we have had to restrict her recently so she can get her waistline back, but she gets massive amounts of grooming and hugs to make up for it! We love our go to TANK named Abbey!!
