

Jenny

Jenny has been with us 2 years now and still showing progress! Jenny has gotten stronger, and holds her head up better than last year. Her smiles tell it all when she rides. She also did a first for her this year, she trotted on Abbey!! She was so happy and her smile would melt your heart! She was so excited about getting to trot. She also rode a lot on her tummy to help continue to build up her neck muscles and she rides longer this year than she did last year. So her overall strength has increased and she is

doing wonderful! We look forward to seeing Jenny again next year and many more years to come. Keep up the great work, Jenny!
